

## Propell® Workshop for the TOEFL iBT® Test

Led by an ETS-approved trainer in an interactive, hands-on classroom setting, the Propell workshop is a one-day professional development program designed to support English-language teachers who teach students English as a second language.

The workshop uses examples from all four sections of the TOEFL iBT test: Listening, Reading, Speaking and Writing. It provides instructional techniques and strategies for using the integrated-skills approach to teaching language and for preparing students for success.

Concepts such as holistic scoring, automated versus human-scoring and teaching academic English will be discussed.

The workshop is also directed towards International Officers and admission staff as it provides them with detailed information about the language requirements of incoming and outgoing students and supports them in selecting prospective students with a TOEFL iBT Test Score.

**When: September 19, 2019**

**Where: SH 2/219**

**Time: From 12:00 to 17:00**

Note that the workshop is FREE OF CHARGE and at the end participants will receive a certificate.

Limited seats are available for this workshop and thus we encourage you to register as soon as possible via email to [SPRACHETESTEN@RUB.DE](mailto:SPRACHETESTEN@RUB.DE).

Please feel free to extend this invitation to those you think would be interested.
