

Registration for the resit date (resit exam)

1. If you decide directly to take the resit exam:

The registration procedure for the resit exam will be available in eCampus from the fourth week of the course. You can independently register and deregister* up to 10 days before the exam.

If you are unable to attend the resit date (due to illness), you are only entitled to another attempt if you can provide proof of the valid reasons for both examination dates.

2. If you are unable to take the main exam due to illness:

Please cancel your registration as early as possible by sending a notifying e-mail to zfa@rub.de with exact details of the exam (course title and lecturer).

Please obtain a medical certificate from your doctor.

If you are unable to attend the resit date (due to illness), you are only entitled to another attempt if you can provide proof of the valid reasons for both examination dates.

To register for the resit exam, see bullet point 1.

3. If you do not pass the exam of the main date:

If you do not pass the exam on the main date, we will automatically register you for the resit date as soon as we have been informed of the result by your lecturer and/or entered in eCampus.

You can cancel your registration in eCampus up to 10 days before the exam*.

Deregistration from the main examination date:

If you already know that you cannot or do not wish to attend, please cancel your registration in eCampus within the cancellation period (usually two weeks before the end of the lecture period).

We reserve the right to deregister participants from the exam who do not fulfil the requirements, e.g. because they do not meet the 75% attendance requirement.

* You can find the registration procedure in eCampus on the course page under Examinations & Services.
