I would like to attend an **English course** at the ZFA. What do I need to keep in mind?

I want to attend an English course at the ZFA for the **first time**.

As we do not offer beginner's courses in English, you have to take the placement test in **any case**. There are exceptions for applicants with a valid language certificate. Please see *I already hold a language certificate* for further information.

I have already attended a **level-specific English course** at the ZFA.

You do not need to take the placement test if you have successfully completed the exam of a level-specific course within **the last ELEVEN MONTH** before the beginning of the course. You can register directly for the follow-up course via eCampus.

> *Example:* You have successfully completed the course 'English for Academic Purposes I (B2)' in the summer semester 2022. You can register for the course 'English for Academic Purposes II (B2/C1)' in the winter semester 2022/23 without taking the placement test.

I have already attended a **mixed-level course**.

If you have attended a **mixed-level course** in the last semester (e.g. a **competence-specific** English course or a **specialised** language course),

please take the placement test to establish your current level of language proficiency.

> *Example:* You have passed the final exam of the course 'Englisch für WiWi' or 'Englisch für SEPM' in the summer semester 2022 based on a placement test result of B2. If you want to attend a level-specific B2/C1 - English course in the winter semester 2022/23, please take the placement test.
