

## I think that my placement test result does not reflect my language proficiency. **May I choose a different language level?**

It is important to note that your placement test result may not reflect your subjective wishes, expectations, or past experiences.

It is **not possible** to change to **another course level** independently. If you have a justified suspicion that the placement test has over- or underestimated your true competences, please contact [anna.timukova@rub.de](mailto:anna.timukova@rub.de) immediately.
